Academic Qualifications

Year	Degree/Certificate	Institute	CPI/%
2023 - Present	BCA	Birla Institute of Technology, Mesra	8.8/10
2023	CBSE(XII)	Rukmani Birla Modern High School	81%
2021	CBSE(X)	Rukmani Birla Modern High School	87%

Technical Skills

- **Languages:** HTML, CSS, JavaScript, TypeScript, React Native, Python, Java, C, PHP, SQL, MATLAB
- **Frameworks/Libraries:** React, Redux Toolkit, Next.js, Node.js, Express.js, Tailwind CSS, Bootstrap, Firebase
- **Tools:** Git, GitHub, WordPress, WooCommerce, ACF, Docker (learning), Canva, Photoshop, Premiere Pro
- **Other:** DSA, REST APIs, Responsive Web Design, SEO Strategy, SMO, Digital Marketing

Key Projects

- **Websites Developer | Freelancing** (May'2024- Present)
 - Built and deployed websites using **React**, **WordPress**, and **WooCommerce** for small businesses and personal brands
 - Customized themes and optimized loading performance with **lazy loading**, **image compression**, and **caching**
 - Ensured website responsiveness and accessibility across all devices using **TailwindCSS** and **Lighthouse** audits
 - Managed **Search Engine Optimization** (SEO) audits and end-to-end delivery from development to deployment
- **Web Developer | International Finance Student Association** (Jun'25-Jul'25)
 - Designed the complete IFSA event **webpage layout** fully and carefully from scratch, ensuring a **brand-aligned look**.
 - Developed the site in **WordPress** using **Divi Builder**, embedding **HTML**, **CSS**, and **JavaScript** for style functionality.
 - Integrated the **Google Sheets API** to fetch and display event data in **real-time**, enhancing accuracy and reducing updates.
 - Optimized **responsiveness**, **performance**, and **cross-device compatibility** for a consistently seamless **user experience**.
- **Full Stack Developer | IShop – E-Commerce Website** (Jan'25-Feb'25)
 - Built a **MERN** e-commerce platform with product listings, shopping cart, admin dashboard, and secure user authentication.
 - Integrated **Jodit Editor** and a custom image upload pipeline into the product form for efficient content management.
 - Designed **REST APIs** and **MongoDB schema** to enable complete **CRUD** functionality and robust shopping cart logic.
 - Optimized performance, responsiveness, and database queries for an exceptionally smooth cross-device user experience.
- **Frontend Developer | Real-Time Crypto Price Tracker** (Feb'25-Mar'25)
 - Simulated a live crypto price feed using **Redux slices** with fake WebSocket updates and integrated debounce mechanisms.
 - Implemented filters for **top gainers/losers**, a fully responsive grid UI, and persistent state storage using **localStorage**.
 - Wrote comprehensive automated **unit tests** for reducers and components with **Jest** and **React Testing Library**.
 - Optimized UI responsiveness, performance, and overall component structure for a significantly improved user experience.
- **Frontend Developer | Online Quiz Platform – Create & Play Quizzes** (Nov'24-Dec'24)
 - Developed a dynamic quiz form builder and real-time quiz engine using **Firebase Firestore** for data handling.
 - Enabled users to create MCQs with correct answers, difficulty levels, and searchable category tags.
 - Built a clean, responsive UI with animations and smooth route transitions using **React Router v6**.
 - Enhanced performance, accessibility, and cross-device compatibility for seamless quiz experiences.
